

L4DC

5th Annual Conference on Learning for Dynamics and Control
June 15-16 2023, University of Pennsylvania, Philadelphia, PA

Learning for Dynamics and Control Conference (L4DC) 2023

We are currently soliciting sponsorship for L4DC 2023. Sponsorship of this event provides an ideal opportunity to support the fifth edition of this event. In addition to a series of invited talks, we also invite submissions of short papers. Our goal is to create a new community of people that thinks rigorously across these disciplines, asks new questions, and develops the foundations of this new scientific area where devices sense and control the physical world.

SPONSORSHIP BENEFITS

GOLD \$5000

Four complementary registrations

Logo displayed on website, on printed agenda, at registration desk

1-2 minute teaser presentation
